SILVER MOUNTAIN MINES INC.

Notes to the Condensed Interim Financial Statements
For the three months ended March 31, 2017 and 2016

1. Nature of Operations and Continuance of Operations

Silver Mountain Mines Inc. (the "Company"), was incorporated on May 12, 2008 under the laws of Alberta and on August 13, 2008 under the laws of British Columbia. The Company's principal business activity is the exploration of mineral properties in British Columbia. The registered office of the Company is 223 Riverview Circle SE, Calgary, Alberta T2C 4K6. These financial statements were approved and authorized for issuance on May 11, 2017 by the Board of Directors.

The financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the payment of liabilities in the ordinary course of business. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and meet its liabilities as they become due. For the three months ended March 31, 2017, the Company incurred a total net loss and comprehensive loss of \$(40,746). In comparison, for the three months ended March 31, 2016, the Company had total net loss and comprehensive loss of \$(55,081). As of March 31, 2017, the Company had an accumulated deficit of \$2,301,070 (December 31, 2016 - \$2,260,324).

The Company is in the process of exploring its mineral property interests and has not yet determined whether the project contains mineral reserves that are economically recoverable. The Company's continuing operations and the underlying value and recoverability of the amounts shown for mineral properties is entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of the mineral properties, obtaining the necessary permits to mine, and future profitable production or proceeds from the disposition of the mineral properties. Management currently assesses the Company's ability to continue as a going concern using financial forecasts of 12 months to ensure the Company has adequate capital to meet its financial obligations.

At its annual and special meeting of shareholders on April 5, 2016, special resolutions supporting a share consolidation, Company name change and expansion of the business were passed by over 97% of the common shares voted at the meeting. With current economic and financial uncertainties in the resource sector, the Company has embarked on transforming itself into a diversified holding company to take advantage of global business opportunities. Under the new business plan, current shareholders will continue to own 100% in the Company's Ptarmigan silver project and will also be able to participate in the diversification of the Company's business going forward. All necessary paperwork will be filed with respective governing bodies concurrent with signing a definitive agreement.

As part of the overall strategy to add value to the Company, the leadership team is reviewing several business opportunities within various sectors. The Company's focus is to look at cash flowing companies and/or assets by way of purchasing all or a participating interest in assets (either in one transaction or more), a merger, recapitalization, amalgamation or any combination thereof. There are no assurances that a transaction will be undertaken or if a transaction is undertaken, as to its terms or timing.

2. Basis of Presentation

(a) Statement of compliance

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"), in effect on March 31, 2017.

SILVER MOUNTAIN MINES INC.

Notes to the Condensed Interim Financial Statements
For the three months ended March 31, 2017 and 2016

(b) Basis of presentation and measurement

These condensed interim financial statements have been prepared using the historical cost convention, except for certain financial instruments measured at fair value through profit and loss ("FVTPL") and share-based payment transactions measured at fair value.

(c) Functional and presentation currency

The condensed interim financial statements are presented in Canadian dollars, which is the functional currency of the Company.

(d) Use of estimates and judgments

The preparation of the condensed interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Key areas of estimation where management has made difficult, complex or subjective assumptions, often as a result of matters inherently uncertain are as follows:

(i) Measurement of share-based payments and warrant valuation (Note 8(d) and (c))

The Company uses an option-pricing model to determine the fair value of share-based payments and warrants. Inputs to the model are subject to various estimates about volatility, interest rates, dividend yields, forfeiture rates and expected life of the equity instruments issued. Fair value inputs are subject to market factors as well as internal estimates. The Company considers historic trends together with any new information to determine the best estimate of fair value at the date of grant.

(ii) Income taxes

The Company follows the liability method for calculating deferred taxes. Differences between the amounts reported in the annual financial statements of the Company and their respective tax bases are applied to tax rates in effect to calculate the deferred tax asset or liability. In addition, the Company recognizes the future tax benefit related to deferred tax assets to the extent that it is probable that the deductible temporary differences will reverse in the foreseeable future. Assessing the recoverability of deferred tax assets requires the Company to make significant estimates related to the expectations of future cash flows from operations and the application of existing tax laws in each jurisdiction. Additionally, future changes in tax laws in the jurisdictions in which the Company operates could limit the ability of the Company to obtain tax deductions in future periods.

(iii) Determination of fair values

The estimated fair value of financial assets and liabilities, by their very nature, are subject to measurement uncertainty.

3. Significant Accounting Policies

These condensed interim financial statements should be read in conjunction with the annual audited financial statements for the year ended December 31, 2016. Details outlining the Company's accounting policies are contained in the notes to the financial statements for the year ended December 31, 2016.

Guaranteed investment certificate bearing interest at 0.40% maturing August 27, 2017	7,198	7,198
Total	\$27,867	\$27,867

The reclamation bond is required by the Province of British Columbia in order to pursue drilling in the province. The cash is held in custody by the issuing bank in the form of guaranteed investment certificates and is restricted as to withdrawal or use. Interest income earned from the certificates is paid to the Company upon maturation of the deposit.

SILVER MOUNTAIN MINES INC.

Notes to the Condensed Interim Financial Statements
For the three months ended March 31, 2017 and 2016

The Company will not receive the deposit back until such time that they have fulfilled their decommissioning liability with respect to their property. Accordingly, the reclamation bond has been classified as a non-current asset.

7. Decommissioning Liability

The Company's decommissioning liability is based on its net ownership in property and equipment and represents management's estimate of the costs to abandon and reclaim those assets as well as an estimate of the future timing of the costs to be incurred. Estimated cash flows have been discounted at the Company's nominal risk free rate of 2.31% and an inflation rate of 2.0%.

The total undiscounted amount of future cash flows required to settle the decommissioning liability is estimated to be \$36,400 (March 31, 2016 - \$35,700) and will be incurred in approximately twenty years from the date of these financial statements.

	2017	2016

	8,326,817	1.08

The \$0.10 warrants issued during 2014 were valued using the Black-Scholes option-pricing model using the weighted average assumptions to estimate the fair value as follows:

As at December 31	2014
Risk-free interest rate	1.06%
Expected life	3.0 years
Expected volatility	248%
Expected dividend yield	0%
Forfeiture rate	0%

(d) Share purchase options

The Company has a share purchase option plan under which employees, directors and key consultants and/or advisors are eligible to be granted options. Under the share purchase option plan, which was approved by the shareholders, the granted share purchase options vest to the grantee over one year and the grantee has the right to exercise those share options for five years from the date of the granting and typically terminate 90 days following the termination of the optionee's employment or engagement. The maximum number of outstanding share purchase options under the plan is limited to 20% of the number of common shares outstanding. The number of share purchase options and the exercise price is set by the Company's Board of Directors based on the market value at the time of granting. During the three months ended March 31, 2017, the Company recorded share-based compensation expense of \$Nil (March 31, 2016 - \$475).

Share options issued and outstanding at March 31, 2017 are as follows:

SILVER MOUNTAIN MINES INC.

Notes to the Condensed Interim Financial Statements
For the three months ended March 31, 2017 and 2016

During 2015, the Company granted 100,000 share purchase options to purchase common shares at an average exercise price of \$0.05. Options were priced using the Black-Scholes option pricing model using the weighted average assumptions to estimate the fair value of options granted:

	2015
Risk-free interest rate	0.82%
Expected life - years	5.00
Expected volatility	358%
Expected dividend yield	0%
Expected forfeiture rate	5%

(e) Contributed surplus

Balance, January 1, 2016	\$2,922,032
Share-based compensation expense	475
Expiry of warrants	19,043
Balance, March 31, 2016	2,941,550
Expiry of warrants	152,344
Balances at December 31, 2016 and March 31, 2017	\$3,093,894

(f) Loss per share

Basic loss per share amounts are calculated by dividing the total net loss and comprehensive loss for the year attributable to the shareholders of the Company by the weighted average number of common shares outstanding during the year.

The Company's dilutive instruments consist of share purchase options and warrants.

The basic and diluted loss per share amounts are the same as the share purchase options and warrants were excluded from the dilution calculation, as they were anti-dilutive.

The weighted average number of shares outstanding for purposes of calculating basic loss per share for the three months ended March 31, 2017 was 48,251,503 (March 31, 2016 – 48,251,503).

9. Commitments

The Company entered into two Net Smelter Royalty Agreements ("NSR") on May 15, 2008 with one director and two former directors of the Company. Each NSR requires the Company to pay a 3% royalty on the gross value of all products shipped from the lease to a third party smelter less allowable expenses. If the minerals are shipped to a party other than a smelter, the royalty is decreased to 2% of the value of the recoverable metals and minerals determined by a third party testing.
