**Silver Mountain Mines Inc. (SMM)** is a Canadian based exploration and development company with 100% ownership in over 9,900 hectares of contiguous land with a diversity of precious and base metals. The property is located in a mineral rich belt in the Purcell Mountains of the East Kootenays in south eastern British Columbia. Our goal is to become a premier silver producing company in Canada through the exploration and development of our land package. Mineralization identified to date consists of past producing high grade epithermal veins and significant massive / semi-massive sulphide intersections.
