

Silver Mountain Mines Inc. Submits TSX Venture Exchange Listing Application and Provides Corporate Update

November 21, 2011, Calgary, Alberta – Silver Mountain Mines Inc. (CNSX:SMM) (“Silver Mountain” or the “Company”) reports that it has made application to list its common shares on the TSX Venture Exchange. Listing of the Company’s common shares and their eventual trading over the TSX Venture Exchange is conditional on fulfilling all conditions required by the TSX Venture Exchange. The Company provides no assurance that such application will be accepted by the TSX Venture Exchange.

Silver Mountain is a past producing mine with a rich history. The mine currently has existing facilities and has approximately 540 meters of adit workings (in ground), with visible high-grade mineralization and exploration infrastructure in place. The Company’s mine is located in a mining rich area near Radium, BC and is close to urban areas in an exploration / mining friendly province.

During 2011, the Company continued exploring the Ptarmigan – Iron Cap Basin areas. The results from this exploration program will assist the Company in defining a future resource. Assay results from Silver Mountain’s geochemistry (greater than 570 samples of soil, silt & rocks from three strategic areas; Ptarmigan – Iron Cap Basin, North Ridge and West Veins, and the East Block) and drilling program (3,712 meters of drilling in the Ptarmigan and Upper Ptarmigan Basin) are currently being analyzed by an independent laboratory. The results of this analysis will be released following interpretation and compilation of the results.

The Company is currently in the process of defining its 2012 exploration programs. The anticipated programs will include surface and underground exploration, drilling, geochemistry and geophysics. Management’s goal in 2012 will be to continue to expand the mineralized area through the gathering of information from its exploration programs with an objective of resource delineation and determining the economic viability of a bulk sample program supporting the potential of near term cash flow.
